

our mission

WE'RE ABOUT PEOPLE...
PROGRESS.

At InterActive Therapy Group, we provide state of the art speech-language pathology, occupational therapy, physical therapy, special education and psychological services. We believe in helping people overcome their obstacles and in advocating for their wellbeing. We provide treatment, information and a commitment to do whatever it takes to give our clients the service they deserve.

We invest in the latest technology so our therapists can invest more time in their clients. We are truly committed to the diverse population of individuals we serve. Because we believe in helping people reach their maximum potential...and realize their dreams.

WE'RE READY TO **grow.**
WE'RE READY FOR **you.**

a diverse approach

InterActive Therapy Group offers its clients a range of services in many locations throughout the state of New York. We contract with a variety of institutions including: hospitals, nursing homes, early intervention agencies, preschool programs and schools. Our therapists are specialized in diagnosis and treatment in the following areas:

- Speech-language pathology
- Occupational therapy
- Physical therapy
- Special education
- Psychology
- Social work

a flexible work environment

At InterActive Therapy Group, every therapist has the opportunity to work with a variety of cases, in a variety of settings—from early intervention to disability evaluations, from preschools to nursing homes. Simply indicate which types of cases you prefer and we do our best to accommodate you. Referrals are awarded based on seniority, areas of expertise and geography.

On average, a salaried therapist with InterActive completes 22–25 visits per week. Those who work with us on an hourly basis have full discretion in determining their case load—you may work as much or as little as you prefer. We will tailor your case load based on your personal preferences (such as number of visits per week and geographic boundaries).

A High-Tech Advantage

Our custom-built network allows our therapists to access and upload client files with the click of a mouse—or tap of a stylus.

a supportive atmosphere

Technology

InterActive Therapy Group has recently invested a considerable amount of capital in a customized network and application to help better connect our therapists with client information and databases. Employees access and enter information through either the web, a Virtual Private Network connection to our network servers, or through a PDA. The input is then synchronized daily with our servers, allowing for easy exchange of information among staff.

Professional Network

For those recently graduated, we devote a great deal of resources to supporting, supervising and providing oversight to our staff. With lighter case loads, our carefully chosen supervisors are able to offer you support and guidance and will be helpful mentors.

Additionally, our supervisors dedicate a good amount of time to support activities where teams can discuss clinical and service issues and enjoy the opportunity to collaborate with their colleagues.

or

HR@interactivetherapygroup.com
(all one word, no spaces)

A member of our staff will review your qualifications and background and will contact you for an interview if a potential fit exists.

If a match is made, we will send you an information packet which includes your contract and various forms that must be completed prior to your start date. Once you have attended the required orientation, you will begin receiving referrals based on your specific parameters.
