

The Advantage Program

Just because your child does not meet the qualifying criteria for publicly funded services doesn't mean he or she can't benefit from a little help. That's why we have created the "Advantage" program. Based on the specific needs of your child and family, we will assign one of our professional staff members to coordinate your program. Each program is conducted through a series of 5 visits with follow up between each visit.

Some of the benefits of participating in the Advantage program include:

- A licensed and/or certified clinician to address your child's specific needs.
- Collaboration with family members, teachers and daycare providers for a complete approach to helping you child.
- Access to a wide range of resources regarding child development and information on various delays and how to help your child.
- You will receive tangible ideas on what you can do to imbed goals into your child's everyday routine.
- A detailed list of recommendations for implementing goals after the program is over.
- Referral to other health or education professionals as needed.
- Personalized, professional service.

We cannot accept health insurance reimbursement for the Advantage Program, but we will provide you with a detailed invoice that you may submit to your insurance company. Please be aware that not all policies will cover these services and you should check your plan coverage for details.

The cost for the program is \$275, which must be paid in advance by check or credit card. Area's we provide this service and contact information are listed below:

Buffalo Area	Gari-Sue Navarro (716) 474-9558
NYC Area	Jared Bauer (646) 230-8190
